

Super Awesome Project Title

Max Mustermann¹, Alice Eve^{1,2}

¹ Helmholtz Center ABC

^{1,2} Helmholtz Center XYZ

USAGE

1. Download all files from Github
2. Edit `poster.tex` with your favorite editor
3. Compile the slides

TYPESETTING

- Standard bullet **point** can be created with the `itemize` *environment*
- They can have multiple sub-point
 - As can be seen here
 - Or here
 - The ordering is unimportant

EQUATIONS

$$f(x) = \sum_i wx_i^2 + \frac{\beta}{2}$$

FIGURES

SOURCE CODE

```
import numpy as np

def foo(a, b):
    """
    asd
    """
    return a + b + 1
```
